Form 6-K dated August 14, 2019

Exhibit 99.1

Notes to Interim Condensed Financial Statements
3.1 Licensing and collaboration agreements , page 13

1. Please provide us the following information supporting your revenue recognition for the license granted under the collaboration agreement with Eli Lilly and Company ("Lilly").
Explain the factors that you considered in characterizing this license transferred to Lilly as a distinct performance obligation representing a "right-to-use" rather than a "right-to-access."

Explain how Lilly has used and is expected to use this license during Phase 1 clinical trials and whether it has benefited from this license since the effective date.
Explain your consideration of factors discussed in IFRS 15.B58 and B59, particularly the extent to which Lilly has been or will be exposed to the positive or negative results of your Phase 1 clinical trials.
Provide support for your use of the residual approach to estimate the standalone selling price for this license, given that this approach is only permissible in limited circumstances.
Explain how the apparent premium implicit in the contemporaneously-negotiated convertible note, which converted to common shares on April 23, 2019, impacted your determination of transaction price and revenue recognized in 2019.
Refer us to the technical guidance upon which you relied.

In closing, we remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or

absence of action by the staff.
