Annual Ordinary Shareholders' Meeting Results

On July 6, 2018, AC Immune SA ("AC Immune") held its annual Ordinary Shareholders' Meeting. The presentation that was given at the Ordinary Shareholders' Meeting is attached hereto as Exhibit 99.1 and the press release relating to the results of the Ordinary Shareholders' Meeting is attached hereto as Exhibit 99.2. The final results of each of the agenda items submitted to a vote of the shareholders are as follows:

Agenda Item 1: Approval of the Annual Report, Annual Statutory Financial Statements and Financial Statements under IFRS of AC Immune SA for the year 2017

AC Immune shareholders approved the Annual Report, the Annual Statutory Financial Statements and the Financial Statements under IFRS of AC Immune SA for the year 2017, and took note of the Reports of the Auditors.

Agenda Item 2: Appropriation of Loss

AC Immune shareholders approved the addition of the net loss for the year 2017 in the amount of KCHF 25,868 to the loss brought forward of KCHF 32,558, resulting in a reduced new balance of loss brought forward of KCHF 58,426.

Agenda Item 3: Discharge of the Members of the Board of Directors and the Executive Committee

AC Immune shareholders approved the discharge the Board and the Executive Committee of their liabilities for their activities in the financial year 2017.

Agenda Item 4: Compensation for the Members of the Board of Directors and the Executive Committee

AC Immune shareholders approved:

- A. The total maximum amount of non-performance-related compensation for the members of the Board of Directors covering the period from 1 July 2018 to 30 June 2019, *i.e.*, CHF 547,000 (cash base compensation plus social security costs);
 - B. The maximum grant of equity or equity linked instruments for the members of the Board of Directors from 1 July 2018 to 30 June 2019 with maximum value of CHF 515,000 (equity or equity linked instruments value plus social security costs);
 - C. The total maximum amount of non-performance-related cash compensation for the members of the Executive Committee from 1 July 2018 to 30 June 2019, *i.e.*, CHF 1,807,000 (cash base compensation plus social security costs);
-

- D. The total maximum amount of variable compensation for the members of the Executive Committee for the current year 2018, *i.e.*, CHF 799,000 (cash compensation plus social security costs); and
- E. The maximum grant of equity or equity linked instruments for the members of the Executive Committee from 1 July 2018 to 30 June 2019 with maximum value of CHF 2,527,000 (equity or equity linked instruments value plus social security costs).

Agenda Item 5: Election of the Members of the Board

AC Immune shareholders approved the re-election of Martin Velasco as member and as Chairman of the Board, Peter Bollmann, Friedrich von Bohlen, Andrea Pfeifer, Detlev Riesner (including granting an exception to the age limit of 75 years foreseen in the Articles of Association), Thomas Graney and Douglas E. Williams, as well as the election of Werner Lanthaler as members of the Board of Directors, each until the end of the next Ordinary General Meeting.

Agenda Item 6: Election to the Compensation, Nomination & Corporate Governance Committee

AC Immune shareholders approved the re-election of Martin Velasco, Tom Graney and Douglas E. Williams as members of the Compensation, Nomination & Corporate Governance Committee, each until the end of the next Ordinary General Meeting.

Agenda Item 7: Re-Election of the independent proxy

AC Immune shareholders approved the re-election of Bugnion Ballansat Ehrler, represented by Gérald Virieux, as AC Immune's independent proxy until the end of the next Ordinary General Meeting.

Agenda Item 8: Election of the Auditors

AC Immune shareholders approved the election of PricewaterhouseCoopers SA, in Pully, for a term of office of one year.

Agenda Item 9: Extension of Authorization for Share Capital Increase

AC Immune shareholders approved the extension by three months of the authorization to increase the share capital of AC Immune, which initial authorization was granted to the Board of Directors at AC Immune's Extraordinary Shareholders' Meeting held on 27 April 2018. This extension will replace the previous authorization resolution granted at the Extraordinary Shareholders' Meeting of 27 April 2018 and will become effective upon expiration of the three-month period to implement the initial resolution regarding the previous authorization if and to the extent such initial resolution has not been implemented.

AC Immune: Precision medicine as factor of differentiations

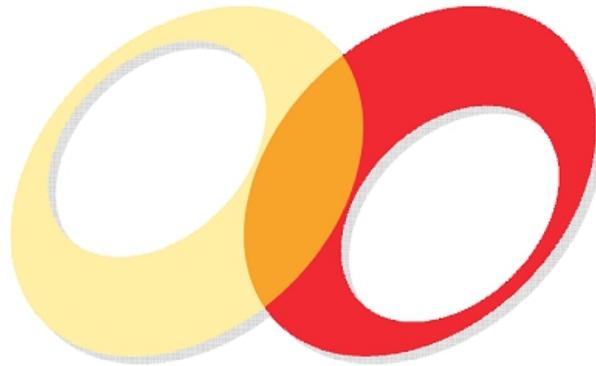

Vision

*To become a global leader in **precision medicine**¹ of neurodegenerative diseases leveraging dual proprietary technology platforms to develop breakthrough therapies*

Dual Proprietary Technology Platforms

SupraAntigen™

Vaccines and antibodies specific to disease causing conformations

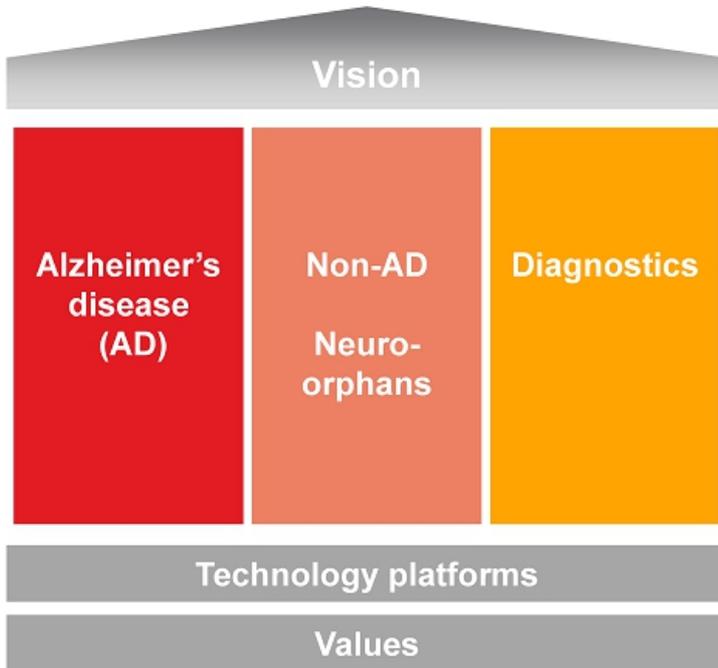

Morphomer™

Conformation-sensitive small molecules

(1) The goal of precision medicine is to deliver optimally targeted and timed interventions tailored to the individual disease drivers.

Business strategy: 3-pillar approach

Precision medicine creates ultimate differentiation

Alzheimer's disease

- Develop best-in-class late stage assets in partnership
- Develop preventive/therapeutic vaccines as fully owned assets
- Establish a pipeline of disease modifying small molecules

Non-AD, neuro-orphans

- Discover therapeutics in Parkinson's disease
- Leverage AD therapeutics in Down syndrome (DS), PSP¹ and other neuro-orphan diseases

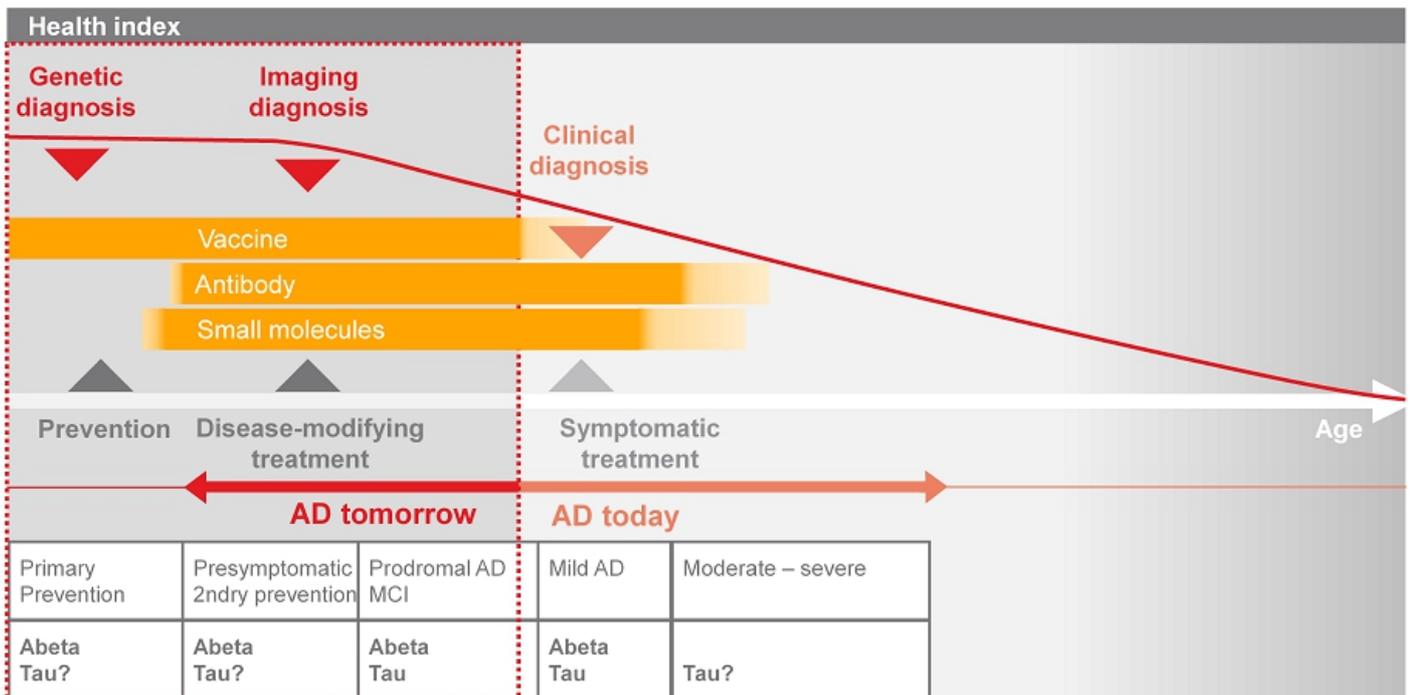

Diagnostics

- Accelerate diagnostic pipeline to late stage development
- Use diagnostics for improved clinical trials and external partnerships

(1) Progressive supranuclear palsy

Alzheimer's disease treatment

Early diagnosis translates into earlier treatment and better outcome

▪ The future treatment paradigm for neurodegenerative diseases may involve different disease-modifying treatments used at various points in the progression of the disease

▪ Possible combination therapies:

- Passive immunization targeting Abeta (e.g. crenezumab) together with anti-Tau antibodies
- Immunotherapies and small molecules targeting Abeta or Tau

Investment highlights

AC Immune: a leader in neurodegenerative diseases

6

Multiple validating high-profile strategic alliances with leading industry partners

1

Pioneering precision medicine in neurodegenerative diseases, a significant unmet medical need and potentially largest market opportunity in healthcare

2

Highly productive proprietary technology platforms (SupraAntigen, Morphomer) as engines for sustained growth

5

Well-positioned financially with CHF 109.7 million in cash at Q1 2018, financed through at least Q2 2019. Increasing investment into key areas of neuro-orphan and neuro-inflammation.

4

Broad and robust product pipeline with complementary diagnostics in clinical development and increasing focus on neuro-orphan and neuro-inflammation

3

Lead product, crenezumab, in Phase 3 development with compelling Phase 2 data and favorable safety profile

AC Immune: Achievements 2017

Highlights and achievements 2017/18

Finance and Business Operations

- Strong cash position of 109.7 million (Q1 2018) provides resources to advance pipeline of nine therapeutic and three diagnostic candidates, through Q2 2019¹
- Received CHF 14 million milestones from Genentech (a member of the Roche group) for first dosing in a Phase 2 clinical trial for Alzheimer's disease with an anti-Tau antibody
- During 2017 we were pleased to strengthen our relationships with the investment community
 - 9 non-deal roadshows (NDRs): USA (4), Europe (4), Asia (1)
 - Overall more than 150 individual investor presentations
- Hosted a Key Opinion Leader (KOL) event focused on Tau as a Therapeutic and Diagnostic Target in Alzheimer's and other Neurodegenerative Diseases

¹ Excluding any potential milestones

Highlights and achievements 2017/18

Finance and Business Operations

- Entered research collaboration agreement with Essex Bio-Technology for development of novel biological therapeutic for the treatment of neurodegenerative diseases and neuroinflammation
- Awarded a continuation grant from The Michael J. Fox Foundation for Parkinson's Research
- Increased staff by 28% over 12 months with strong focus on R&D (neuroinflammation and neuro-orphan)
- Appointed Head of Corporate Communications and hired back Director of Global Program Management

Highlights and achievements 2017/18

Clinical stage programs

- **Crenezumab¹**:
 - Second pivotal Phase 3 trial of CREAD 2 initiated in 750 subjects with prodromal to mild Alzheimer's disease in Q1 2017
 - CREAD 1 is fully enrolled in Q4 2017
- **ACI-24 in AD**: Encouraging interim data of Phase 1/2a; advancing to Phase 2
- **ACI-35²**: Promising interim data of Phase 1 study; joint decision with Janssen Pharma to move program forward and scientific advice from regulatory authorities for next phase of development
- **Anti-Tau antibody¹**: Phase 2 started in November 2017 based on encouraging Phase 1 data
- **Antibody**: Discovered next-generation antibodies for two targets that are important in the pathogenesis of significant neurodegenerative and neuro-orphan diseases (TDP-43 and alpha-synuclein)
- **ACI-24 in DS**: Completed recruitment for low-dose cohort of participants in a Phase 1 trial targeting Alzheimer's disease-like characteristics in individuals with Down syndrome

Developed under out-licensing agreements with ¹Genentech/Roche; ²Janssen

Highlights and achievements 2017/18

Pre-clinical stage programs supporting ACIU's Precision Medicine approach

- **A-synuclein-PET tracer¹**: Discovered potentially first selective alpha-synuclein positron emission tomography (PET) tracer for Parkinson's disease
- **Tau Morphomers (AD)**: Selected Tau small molecules (Tau Morphomers) have entered into IND/CTA enabling studies; Phase 1 to commence by the end of 2018
- **Tau-PET imaging agent in AD²**: Encouraging pre-clinical and Phase 1 data with favorable kinetics and densitometry; specific binding to different Tauopathies

Developed under collaboration agreement with ¹Biogen; ²Piramal Healthcare

- b) the pre-emptive rights of the shareholders for the newly issued registered shares shall be preserved; the Board of Directors shall be entitled to publish the subscription price by electronic media including press release and e-mail and to limit the subscription period to one business day; any new shares not subscribed shall be allocated by the Board of Directors at its discretion;
- c) the technical issuance price of the new shares to be paid in cash shall be determined by the Board of Directors;
- d) the new shares are entitled to dividends for the business year starting 1 January 2018;
- e) the new shares are subject to the transfer restrictions as outlined in article 4 of the Articles of Association;
- f) the stamp duty shall be paid by the Company; and
- g) the Board of Directors is authorized and instructed to implement and register this capital increase with the competent commercial register.

Agenda item 9b

Share Capital Increase for Current Shareholders

- a) the share capital of the Company is increased by way of an ordinary increase of by up to CHF 30'000 by issuing up to 1'500'000 registered shares with a nominal value of CHF 0.02 each;
- b) the pre-emptive rights of the shareholders for the newly issued registered shares shall be preserved; the Board of Directors shall credit each shareholder with a corresponding number of non-tradable subscription rights with identical terms as offered to institution investors in the ordinary share capital increase resolution resolved today. Such subscription rights may be exercised during a subscription period of at least six business days; any new shares not subscribed shall be allocated by the Board of Directors at its discretion in first priority to current shareholders;
- c) the technical issuance price of the new shares to be paid in cash shall be determined by the Board of Directors;
- d) the new shares are entitled to dividends for the business year starting 1 January 2018;
- e) the new shares are subject to the transfer restrictions as outlined in article 4 of the Articles of Association;
- f) the stamp duty shall be paid by the Company; and
- g) the Board of Directors is authorized and instructed to implement and register this capital increase with the competent commercial register.

About AC Immune

AC Immune is a clinical stage Swiss-based biopharmaceutical company, listed on Nasdaq, which aims to become a global leader in precision medicine for neurodegenerative diseases. The Company designs, discovers and develops therapeutic as well as diagnostic products intended to prevent and modify diseases caused by misfolding proteins. AC Immune's two proprietary technology platforms create antibodies, small molecules and vaccines designed to address a broad spectrum of neurodegenerative indications, such as Alzheimer's disease (AD). The Company's pipeline features nine therapeutic and three diagnostic product candidates – with five product candidates currently in clinical trials. The most advanced of these is crenezumab, a humanized anti-amyloid- β monoclonal IgG4 antibody that targets monomeric and aggregated forms of amyloid- β , with highest affinity for neurotoxic oligomers. Crenezumab is currently in Phase 3 clinical studies for AD, under a global program conducted by the collaboration partner Genentech (a member of the Roche group). Other collaborations include Biogen, Janssen Pharmaceuticals, Nestlé Institute of Health Sciences, Piramal Imaging and Essex Bio-Technology.
